Mental Health

Providing consistency, our team includes a specialist team of Higher Court Advocates which enables us to represent clients throughout their case - from Police Station to Magistrates Court and Crown Court, engaging external barristers only if necessary. Our lawyers are available around the clock and ready to travel to wherever an interview takes place.

Whether our clients are involved in a minor road traffic offence, white collar crime, fraud, assault or a more serious crime, each receives the same care and meticulous attention to detail. We will fight their case, protect their rights and defend them in every permissible way.

Investigation and prosecution by the Police can be very distressing but as one of our clients you will benefit from the diligent, experienced, sensitive representation we provide around the clock, 365 days a year.

From Police Station to Crown Court, our team of specialist Criminal Defence Lawyers can represent you throughout your case. We operate a 24 hour dedicated Crime helpline.

For best support you should request our presence at the point of your arrest. Ask for us by calling 0780 167 6603. We will travel as soon as possible to wherever you are to be questioned.
