enabling them to pass on that wealth to their beneficiaries.

By building close relationships we are able to identify individual needs and provide wide ranging advice encompassing the most appropriate structures and mechanisms suited to those needs.

We pride ourselves on being discreet, sensitive and caring at all times, regularly visiting older clients at home if they cannot travel to our offices.

GHP Legal will help you to plan your future with confidence by helping you to protect your estate and seeking to ensure that your wishes are fulfilled. We can explain Inheritance issues and your IHT position, and advise you as to opportunities available for avoiding or reducing your tax liability. We are also able to advise you of funding options if you are worried about meeting care costs in later life. You may be concerned about managing your affairs if you become incapacitated: we can advise you of the steps that you can take whilst you are still fit.

At the outset and after assessing your requirements, we will provide you with an estimate of cost.
